Different sizes of Harmonizers work together exponentially and when they are together they go out universally.

19. Pyramids

Basically pyramids gather energy and direct it into the universe. They connect to other dimensions. Write out an intention and place it under the pyramid. The pyramid energy sends this intention out so that it can more easily be manifested.

It is great to sit in the energy field of 3 pyramids. Point them toward the body and feel the energy flow through the body.

“I had an infection in my nail. I pointed the pyramid at it, the throbbing stopped and the healing began. I did this quite a few times. The nail healed beautifully.”

Pyramids continued

One can also direct or point the pyramid anywhere on the body. A pyramid continually sends energy. If any area is hurting, point the pyramid there.

"I had stubbed my toes very badly and it felt like one was broken. Naturally the pain was severe. I quickly grabbed a small orgone pyramid and within 5 minutes the pain was almost gone. As I continued dressing, I placed a Total Balancer on my foot while standing. By the time I was finished, the pain was completely gone and I could put my shoes on and walk as if nothing had happened. I was amazed!"

Place them where guided to and let them go to work.

20. **St. Joseph Statue**

St. Joseph is known as the patron of real estate.

With the St. Joseph Statue and orgone, the house does not age as fast because the vibrations have come into harmony. The energies of the home or place of business smooths out and the positive energies are increased.

Joseph can do it without us which allows our presence there to be easier - we do not have to work as hard. A St. Joseph statue may be needed on each floor.

Businesses need this. For the business buildings have all different intentions and all metal, glass and steel, plus the many different businesses in the building can make it disjointed.

So many different people have worked in constructing the building and so many different tenants are there. The St. Joseph Statue will help tremendously in bringing a cohesiveness to the building and enable everything to work better for everyone.

Each piece of Orgone has its own work to do and they do work together. The St. Joseph statue works very specifically on different aspects of the home or business.

An Orgone Rose or Heart work extremely well with St. Joseph Statue. Read the article on www.loveoftheearth.com to see how real estate people work with the St. Joseph statue for selling real estate.
